## WORKSHOPS

A choice of two interactive workshop sessions led by prominent experts within the field of plant biology

Cell biology: seeing the invisible  
Pathology: disease detectives  
Taxonomy: identity challenge  
Development: building a plant

## NEXT STEPS

Meet 4 current and recently finished PhD students to learn about what it means to be a postgraduate, covering everything from funding to theses

## CAREERS PANEL

Meet 8 plant science professionals from different backgrounds, job roles and careers stages to find out more about what the sector can offer you, and how to get there

eGPSSS21 will be a great opportunity to see where a career in plants can take you.

Join a network of plant science professionals, PhD students and GPSSS alumni.
